***SEEK ADVICE FROM MEDICAL PROFESSIONAL:***

*As with any physical activity, it is important that before beginning any fitness regime, you consult with your health care professional to ensure that you are mindful of your current health and any restrictions that are appropriate for you. You should immediately seek medical attention if there are any unanticipated changes to your physical condition at any time.*

*You require a moderate level of fitness to follow the exercise programs. Persons with pre-existing medical conditions, in poor health, or with any concerns as to commencement of a new fitness regime should consult with an appropriate healthcare professional before beginning this program. You are responsible to make your own inquiries and seek independent advice from a healthcare professional.*
